

## What Can The Digital Missions Display Do?

1. Providing a platform for churches to connect with their missionaries
2. Offering a central hub of information related to missionary work and activities
3. Allowing for easy access to updates, prayer letters, images, and videos from missionaries
4. Encouraging interaction and engagement among church members and with the missionaries through QR code support
5. Offering a customizable display that matches the church's branding and individual missionary needs
6. Increasing transparency and accountability in missions work by providing regular updates and direct communication channels
7. Supporting missions education and awareness by sharing information about various mission fields and opportunities for involvement
8. Helping churches to be more efficient and effective in their support of missionaries by providing a centralized system for managing and distributing information
9. Enabling churches to track and monitor the progress of their missionaries and the impact of their support
10. Providing a tool for churches to attract new members by highlighting their mission work and engagement with the global community.
