Hello Friends and Partners,
Debbie and I trust this ministry update finds you doing well.

Pastoral Enrichment ~

It was exciting to have a missions team from Desert Springs Church, Arizona here recently. Along with ministering in two different churches during the week, the pastors from Chandler & Gilbert (AZ) also led pastoral enrichment sessions in Francistown and Mahalapye in the Northern Region of Botswana. Many of the Northern Region pastors live in remote bush areas that contribute to a sense of isolation, along with unique ministry challenges. There were nearly forty Botswana pastors at the training. The pastors in attendance were greatly encouraged. Many testified of how timely the personalized ministry was and how much the Holy Spirit ministered to them during the sessions. Pastors praying for one another during training (photo to left). It was a rich time of

Kingdom building and ministry together.

New Church Structures ~

Over the last few months three new church structures have been erected for village churches in Botswana. To the left is Pastor Kaelo and I standing underneath one of the new tabernacles (photo below). Pastor Kaelo is thrilled with the new church structure on a newly purchased (fully paid) piece of property in the center of the village. (By the way, Pastor Kaelo is one of Matt's former Bible College students from about six years ago). The other two tabernacles were erected in the remote bush villages of Charles Hill (near Namibian border) and Machaneng. The congregations are overjoyed to be having services in their own church building on their own property. Glory to God!

We are so humbled and grateful for each of you and the many ways you partner with us.
