Furlough

FURLOUGH

We returned in our 1st furlough. We visited many different churches, raising additional support to compensate for the family growth we had during our first term and, in addition to some churches that had to drop our support due to financial reasons. Leandro and Jorge were commissioned to oversee the ministry in 2018.

PURCHASING LAND AND HIGHEST GROWTH

We purchased land and started to develop our Christian camp. We began our youth camp program. We experienced our most significant time of church growth, reaching averages on Sundays in the 90's with highs in the 100's. Massive protests abruptly halted Chile, which mobilized over 1 million people to Santiago's streets and wreaked havoc for three months.

COVID PANDEMIC - NEW WORK IN IQUIQUE

COVID-19 changed many things in our church. Due to the uncertainties and governmental restrictions, we were forced out of physical meetings for over a year and relied mainly on online services through Zoom meetings. By the end of the year, we supported a second work out of the church in Iquique, sending five families from our church to support the new work.
