

Dear fellow servants of our Lord,

January - March 2024

As always, thank you all for all for your faithfulness to our Lord first and foremost, but also in your prayers and support for our family and this ministry. We hope this year has started off as well for you all as it has for us!

We were able to make the two missions conferences in our home state which was a huge encouragement to us and hopefully those we were with. One of them was a Church we had been to once before when we first started deputation, and they were a huge help us to with some of the last few things we needed for Everleigh before she made her arrival. The other was at a supporting Church that has always been a blessing and encouragement to us, and this meeting was no different. We had to reschedule several of our meetings that were further off because we thought Everleigh was going to come sooner than we previously expected, but the Lord worked the timing out greatly since we had a couple of Churches call us and filled in those dates. We want to thank you all for praying for a safe delivery, especially since there were some complications. Thankfully the Lord helped my wife and Everleigh through the complications and she made her arrival on February 19th.

Due to the timing of Everleigh's birth and how much closer it was to my Peru trip than expected, after my wife and I both praying I felt it best to stay home with her and help her postpartum instead of making the trip. That being said Brother Steve, his wife, and two of the youth ministry leaders from Costa Rica and Venezuela made it down there and introduced a new ministry in training pastors, pastor's wives, and church workers in children ministries and more. There is another trip planned in October where we will begin the training so please help us pray for the Lord's will in this trip and ministry for us to a blessing to His people and to see more come to salvation.

In the end of 2021, the Lord allowed one of the men who graduated from the Bible college to go back to his home village and helped him in starting a Church. This village has around 25,000 people in it and this Church is the only Baptist Church there. The Lord has allowed them to faithfully gather together over the last few years without a building, has provided the finances to purchase land and more recently provide for the completion of a building. Please continue praying for this village, the pastor and Church there, and for the Lord to add to His Church in this village.

Thank you all again for your faithfulness to not only pray for us, but to labor together for our Lord!

*Your hands in the ministry,
The Teague family*
