

## Provisioning Digital Missions Display Android Device MissionaryConnect

1. On a separate computer, download the SureMDM Nix Agent APK from:

<https://www.42gears.com/products/mobile-device-management/suremdm-nix-agent-past-releases>

2. Save the APK file (nixagent.apk) to a USB flash drive, then safely remove the drive from the computer.
3. Insert the USB flash drive into one of the USB ports on the back of the display.
4. On the display, swipe up from the bottom of the screen and tap File Manager.
5. In File Manager, tap the USB drive icon on the left panel.
6. Locate and tap nixagent.apk on the right side.
7. When prompted, tap INSTALL.
8. After installation completes, tap OPEN.
9. When the SureMDM screen opens, tap the red "Get Started" button.
10. Select the top option, even if it says "Not Recommended."
11. Enter the Account ID: 122500322
12. For Server Path, enter: missionaryconnect.suremdm.io  
(Do not include https://)
13. Grant all permissions when prompted. ( start from bottom )
14. Enter the password: VictoryInJesus
15. Once complete, the device will appear in the SureMDM console, and settings will be pushed remotely.

After the device is available in the Console on my end, I will push the Setting and Provision the Device(s)
